

Protect Your Home!

Coastal Retrofit Mississippi is taking applications from single family homeowners with homestead exemption in the three coastal counties for a project that can improve your home's ability to survive damage from hurricane force winds

- A new state law requires all insurance companies to provide windstorm discounts or insurance rate reductions for new and existing homes that have been retrofitted against future wind events!
- The retrofits are designed by engineers and installed by licensed and bonded contractors
- All Wind Risk Zones are now open for applications processing
- Funding limited, applications will be processed on a first come first serve basis.

**Homeowners only pay
10% of the base package cost!**
